Consent to perform extractions and necessary procedures

During the procedure, each tooth must be carefully evaluated so the veterinarian can choose the best treatment. To help you avoid surprise charges, a staff member will call you to update this estimate DURING the procedure if additional services are needed. We recommend completing all needed dental procedures during this visit so you can avoid scheduling another appointment with additional sedation costs.

Please select ONE of the options below:

Dental X-ray

80% of dogs and 70% of cats over 3 years old have dental disease. Often disease lies deep below the gum line and may not be obvious on physical exam. Because teeth may look healthy and have hidden disease such as infection and decay, we recommend dental x-rays to look for these problems.
